APPENDIX A—SCHEDULE OF GOVERNMENT BEEF PURCHASE AND SET ASIDE PERCENTAGES UNDER WAR FOOD ORDER NO. 75-2

Base period. The month of July 1944 is hereby established as the base period.

Current rate of slaughter. Current rate of slaughter is determined by dividing the dressed weight of cattle slaughtered during a current week by the average weekly slaughter of cattle (dressed weight) during the base period (July 1944).

Government purchase and set aside percentages. In accordance with the standard set forth in paragraph (e), the following schedule of percentages is hereby established. The quantity of each grade of Army-style beef which the persons or agencies designated in paragraph (c) (1) may purchase is determined by applying the appropriate percentage to the total weekly production (dressed weight) of each of such grades of Army-style beef, and the quantities of Utility grade (Grade C) beef and of Canner and Cutter grade (Grade D) beef which are required to be set aside by any slaughterer are determined by applying the appropriate percentage to the total weekly production (dressed weight) of Utility grade beef and

Canner and Cutter grade beef, respectively. All Army-style beef required to be set aside or made available for purchase by Zone 9 kosher slaughterers shall be in the form of hind quarters.

All dressed pork cuts and pork products set aside under this order shall be prepared in accordance with specifications established by governmental agencies. Such specifications may be obtained by application addressed to the Order Administrator.

This amendment, together with Appendix A hereof, shall become effective at 12:01 a. m., e. w. t., July 1, 1945, and shall supersede in all respects War Food Order No. 75.3a, as amended (10 F.R. 6500, 6924). At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 29th day of May, A. D. 1945.

In the Matter of Liquid Tight Paper Container Association, an Unincorporated Association; George J. Lincoln, Jr., as Secretary and Manager of Liquid Tight Paper Container Association; Boothby Fibre Can Company, a Corporation; Gordon S. Smith and George T. This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answers of the respondents admitting all of the material allegations of fact in the complaint and waiving all intervening procedure and further hearings as to the facts, and testimony and other evidence taken before a trial examiner of the Commission theretofore duly designated by it; and the Commission having made its findings as to the facts and its conclusion that the respondents have violated the provisions of the Federal Trade Commission act:

It is ordered, That respondents Liquid Tight Paper Container Association, an unincorporated association, and George J. Lincoln, Jr., secretary and manager of

said association, and respondent manufacturers Boothby Fibre Can Company, a corporation, George T. 5. 7. Fixing or maintaining any classification of customers, either as jobbers or consumers, for the purpose or with the effect of establishing or maintaining uniform price differentials between the respective classes.

8. Fixing or maintaining resale prices at which the respective respondent manufacturers' jobber customers sell said products, and refusing to allow usual jobber discounts to those jobbers who do not sell the respondent manufacturers' suggested prices and terms.

9. Filing with the respondent association, or with any other medium or central agency, price lists or other information showing current or future prices for said products, with the understanding

that such price lists or other information showing current or future prices for said products will not be changed or deviated from until new and different price lists or other information showing other current or future prices are so filed by the respondent manufacturers.

10. Forwarding by the respondent manufacturers to the respondent association of invoices or copies thereof showing the details in respect to prices, discounts, and terms of sale at which said products are being sold, for the purpose or with the effect of restraining competition in the offering for sale or sale of said products.

Chapter IX—War Production Board

AUTHORITY: Regulations in this chapter, unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827; E.O. 9024, 7 F.R. 329; E.O. 9040, 7 F.R. 527; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended Dec. 31, 1943, 9 F.R. 64.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Interpretation 32]

EFFECT OF § 944.11 OF PRIORITIES REGULATION 1 ON SALE OF B PRODUCTS

The following interpretation is issued with respect to CMP Reg. 1:

(a) *Sale of B products by the manufacturer.* Section 944.11 of Priorities Regulation 1 provides that when a material, or a product into which it has been incorporated, can no longer be used for the purpose for which the priorities assistance used to get the material was given, the material or product may only be used or disposed of in certain ways. However, this provision does not prevent the sale of Class B products manufactured on an authorized production schedule to fill different orders (including unrated orders) from those originally anticipated, because the purpose for which the priorities assistance was given was to assist the manufacturer to get materials to make the Class B product, and not to get materials to fill only rated orders or any particular orders. Therefore, unless a particular War Production Board order covering the product provides otherwise, any Class B product manufactured on an authorized production schedule may be sold to fill any orders received, whether rated or unrated, as long as rated orders are given the preference required by Priorities Regulation 1 or other applicable regulations or orders. This is true even though the CMP-4B application was filed with the expectation that all sales would be made on rated orders or on particular orders, and even though all production materials required were obtained by the use of priorities assistance.

(b) *Examples.* (1) A manufacturer of frying pans is given priorities assistance, pursuant to application on Form CMP-4B, for sufficient material to make 10,000 frying pans during a particular quarter. There is no order requiring frying pans to be sold only on rated orders, but at the time the manufacturer files his CMP-4B application he expects to deliver 5,000 of these pans to fill a rated Army contract and the other 5,000 to fill other rated orders which he has on hand or expects to receive. The Army then cancels its contract. Under these circumstances the manufacturer may still manufacture the 10,000 pans and sell them to fill any orders which he receives, whether rated or unrated, *Provided*, That rated orders are given the preference required by Priorities Regulation 1.

(2) A manufacturer of metal creepers is given priorities assistance, pursuant to application on Form CMP-4B, for sufficient material to make 1,000 metal creepers. At the time he files the application and until he receives the authorization and purchases the material, a War Production Board order prohibits sales of metal creepers on unrated orders. Then this prohibition on unrated sales is removed from the order. The manufacturer may make the 1,000 creepers from the material and sell them on any orders he receives, whether rated or unrated, *Provided*, That rated orders are given the preference required by Priorities Regulation 1.

(3) A manufacturer is given priorities assistance, pursuant to application on Form CMP-4B, for sufficient material to make 1,000 filing cabinets out of steel. The use of steel in filing cabinets is prohibited by Order L-13-b except to fill orders of the Army, Navy and certain other agencies. The manufacturer has an order from the Navy for 1,000 filing cabinets and proceeds to make 500 of them when the Navy cancels its order. The manufacturer may sell the cabinets he has already made on any order, rated or unrated, to any person. (There is no WPB order which requires a rating before filing cabinets can be sold.) This is true since L-13-b merely forbids manufacture of steel filing cabinets except for certain purposes, and the cabinets were legitimately manufactured for one of these purposes from material given to make filing cabinets. This applies only where the manufacturer in fact produces the product for a permitted purpose, or on a permitted order and not where he produces in anticipation of orders of the permitted type which he does not later receive. However, he cannot, without violating L-13-b, use any more steel in making more filing cabinets after cancellation of the Navy contract unless he receives another order from one of the agencies mentioned in L-13-b. If L-13-b also forbade delivery except on certain types of orders, such provision will still control. However, it would not be necessary to obtain rated orders so long as the orders came within the permitted types.

(c) *Exception to general rule regarding sale of Class B products.* Where the WPB, by special action gives priorities assistance to get certain materials required to produce the Class B product for a certain customer or use, those materials and the particular B products into which they are incorporated may be disposed of only as described in §944.11 of Priorities Regulation 1, if the products or materials cannot be used for the special purpose for which the priorities assistance was given. For instance, if the WPB has granted rating of AAA to get wood for the manufacturer of wooden filing cabinets to fill a specific Navy order, the manufacturer could not dispose of the finished filing cabinets except as described in §944.11. Also, since the preference rating was granted only to fill the Navy order, he can dispose of any excess wood only as described in §944.11.

Maximum prices for some species are fixed in cents per pound, for others in cents per fish. Such prices apply to sales to any person, and include all brokerage, commissions, or any other customary selling fees, transportation and any other expenses incurred. The species covered by this section are as follows:

Common name	Scientific name
Chum, dog or keta	<i>Oncorhynchus keta</i> .
Coho, or silver	<i>Oncorhynchus kisutch</i> .

It does not cover industrial structures such as steel frame buildings, docks, warehouses, hospitals, or buildings or housing projects erected for or by the United States or Territorial Governments.

(ii) In general, the construction and repair services and sales of installed building materials covered by this section fall into nine main categories in accordance with the trade practice of the building trades on the Island of Oahu. They are:

Masonry	Appendix C
Plumbing and sheet metal work	Appendix D
Electrical work	Appendix E
Painting	Appendix F
Cesspool construction	Appendix G
Hard tile work	Appendix H
Floor sanding and paint removal	Appendix I

(iii) Maximum prices for construction services and sales of installed building materials performed under each of these main categories are established under separate appendices at the end of this section. This is done either by fixing dollars and cents prices for a particular service or installed building materials, or by providing a formula by which an individual contractor or subcontractor may calculate his maximum price for the particular type of work being performed. The nature of the contracting work constituting a particular category is defined in paragraph (c).

(iv) Every person, whether a general contractor or a subcontractor covered by this section, is required to determine his maximum prices for the kind of work performed by him under the particular appendix covering that work. If any person sells installed building materials or

performs construction services covered by this section which are not included in the definitions of the nine categories listed in subdivision (ii) above, he shall determine his maximum prices under Appendix A.

SEC. 2. *Less than maximum prices.* Nothing in this regulation shall prevent the sale of the products covered at less than maximum prices.

SEC. 3. *Transactions and products covered—(a) Transactions covered.* This regulation covers any and all sales and purchases, whether from a factory, warehouse, or dealer, by any person, whether manufacturer, dealer, wholesaler or user, of any of the products covered by this regulation.

(b) *Products covered.* The term "tight cooperage stock" as used in this regulation covers all staves, headings and cooperage dowels, both finished and unfinished, including laminated, sawed, bucked, rived and split, produced primarily for use in making liquid tight barrels and kegs of a bilged type and all staves and headings produced as a result of such primary production, as defined in the grading rules of the Associated Cooperage Industries of America, Inc., or in this regulation or by general or individual specifications. Coverage is limited to production in the following states: Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Mississippi, Missouri, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, West Virginia and Wisconsin.

The term "sawed tight cooperage" as used in this regulation covers all barrels and kegs made entirely or partially of staves and headings covered by this regulation.

(c) *No. 3, dog, copper or metal barrel stock* is of a quality lower than No. 2

grade. Dead culls are not included, but any stock that can be coopered in the regular manner without breaking is included.

(d) *Dead culls* include any badly warped or twisted stock; stock which contains dote or rot or any other stock which cannot be coopered.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 5. *Maximum prices for tight staves and headings—(a) Factory or mill sales.* In direct factory sales, that is, sales made by the producing factory, the maximum prices, f. o. b. mill or railroad, for sawed tight staves and headings are those contained in the Tables II to V, inclusive, of Appendix A. Actual transportation cost may be added for the distance in excess of 25 miles from the mill to the railroad. Except, however:

(1) On shipments of sawed tight staves and/or headings of 6,000 pounds or less from a producing factory, a mark-up of 10 percent may be added to the maximum prices contained in the schedules;

(2) When staves and headings are sawed in the Southern Area and finished in the Upper Area, the maximum price shall be the Upper Area price, or the Southern Area price plus transit freight, whichever is the lower;

(3) When staves and headings are sawed in the Upper Area and finished in the Southern Area, the maximum price shall be the Upper Area price.

(b) *Warehouse sales.* In warehouse sales the maximum prices for tight staves and headings shall be the maximum f. o. b. producing factory price plus the warehouseman's average percentage mark-up on the same items in March 1942 plus average inbound freight from the producing factory to the warehouse. As used in this regulation a "warehouse sale" is a sale in which shipment or delivery is made from an established storage or distribution place located and operated independently of the producing mill or factory. No shipment from a stove or heading mill or finishing plant may be considered a "warehouse sale".

Average inbound freight is to be weighted by the quantity in the warehouse at the time of making the computation. The average must be figured at least once each month.

As used in this regulation the term "warehouseman" is one who maintains an established storage or distribution place, located and operated independently of a producing mill or factory and from which shipments of cooperage stock are made.

A warehouseman who had no such mark-up in March 1942 may apply in writing to the Office of Price Administration, Washington 25, D. C., setting forth the nature of his business operations, including such facts as the classes of customers to which he sells, a description of the items to be sold, the requested mark-up and the names and addresses of the applicant's nearest competitors. The Administrator will by order establish a

mark-up for the applicant based on the mark-ups used by his competitors.

[Above paragraph added by Am. 6, effective 7-2-45]

(c) *Sales by dealers or merchants.* In sales by dealers or merchants of their purchased stock the maximum prices for tight staves and/or headings of more than 6,000 pounds shall be the maximum f. o. b. producing factory price contained in the schedule plus a mark-up of 7 percent of the f. o. b. factory price.

[Paragraph (c) amended by Am. 1, 8 F.R. 11175, effective 8-9-43]

On shipments of 6,000 pounds or less a dealer's or merchant's maximum price shall be the maximum f. o. b. producing factory price contained in the schedule plus a mark-up of 7 percent of the f. o. b. factory price. This mark-up is in addition to the 10 percent mark-up provided for such sales in section 5 (a) (1).

As used in this regulation the term "dealer or merchant" is one who, although he does not take actual physical possession, buys, takes title to, resells, and assumes credit risks and responsibility for grade and count. No producer may qualify as a dealer or merchant under this regulation of products which he has produced in the rough.

SEC. 6. Maximum prices for tight cooperage—(a) Factory or mill sales. (1) The maximum prices, f. o. b. factory, for sawed tight cooperage covered by this regulation shall be the maximum price in the area where the cooperage plant is located for the finished staves and headings used in the barrel plus the mark-ups shown below plus extra charges for materials and services as specified in Table I of Appendix B. The cooperage allowance for barrels of 30 gallons or over shall be the mark-up shown below or \$1.60, whichever is greater.

PERCENTAGE MARK-UPS ON BARRELS

Bourbon barrels. The mark-up shall be 50% of the maximum price of the staves and headings used in the barrel.

Barrels of grades over sap clear oil grade and under bourbon. The mark-up shall be 65% of the maximum price of sap clear oil grade staves and headings.

Barrels of sap clear oil grade and under. The mark-up shall be 65% of the maximum price of the No. 1 grade in the type and species used.

Barrels with single or loose wood heads or heads other than wood. The mark-up over actual material cost shall be the same as shown for standard two crozed head barrels.

(2) Cooperage producers located in states other than those included in the stock-producing areas (Table 1, Appendix A) shall use the maximum prices of staves and headings in the upper area for the purpose of computing cooperage prices under paragraph (a) (1) of this section.

[Subparagraph (2) amended by Am. 2, 9 F.R. 3351, effective 4-1-44]

(b) *Warehouse sales.* In warehouse sales the maximum prices for tight cooperage covered by this regulation shall be the maximum f. o. b. producing fac-

tory price plus the warehouseman's average percentage mark-up in March 1942 plus average inbound freight actually paid or incurred by the warehouseman (computed in accordance with section 5 (b)). A warehouse sale is defined in section 5 (b).

(c) *Sales by dealers or merchants.* In sales by dealers or merchants the maximum prices for sawed tight cooperage covered by this regulation shall be the maximum f. o. b. producing factory price plus the seller's average percentage mark-up on such sales in March 1942. Sales by dealers or merchants are defined in section 5 (c).

(d) *Sales by new sellers other than manufacturers.* A warehouseman, dealer, or merchant who did not sell tight cooperage covered by this regulation in March 1942 may make application in writing to the Office of Price Administration, Washington 25, D. C., setting forth the nature of his business operations, including such facts as the classes of customers to which he sells, a description of the items to be sold, the requested mark-up and the names and addresses of the applicant's nearest competitors. The Administrator will by order establish a mark-up for the applicant based on the mark-ups used by his competitors.

[Paragraph (d) added by Am. 6, effective 7-2-45]

SEC. 7. Maximum prices for cooperage dowels. The maximum prices f. o. b. factory, for cooperage dowels are those contained in Table VI of Appendix A.

SEC. 8. Products not specifically priced. Tight cooperage and cooperage stock not specifically priced in this regulation are nevertheless covered by the regulation. Any person desiring to sell on the domestic market any product covered by the regulation for which he cannot determine a f. o. b. mill price under the regulation shall make application to the Lumber Branch, Office of Price Administration, Washington, D. C., for a price. The application must contain a complete description of the product to be priced, the applicant's March 1942 selling price of the product if he sold such product at that time, his requested selling price and his method of arriving at this price. Products may be sold and delivered at the requested selling price, pending approval of a price by this Office subject, however, to adjustment to the price finally approved. Prices not disapproved within 20 days from the receipt of application are approved until specifically revoked.

SEC. 9. Delivered prices. If delivery is by common carrier the actual transportation costs paid or incurred by the seller may be added to the basic maximum prices. If shipment is by truck, owned or controlled by the seller, actual transportation costs may be added to the basic maximum prices. Such transportation cost may not exceed 80% of the common carrier charge for the same shipment. This provision is subject to

the exception contained in section 5 (a) regarding free delivery of staves and headings from mill to railhead located within 25 miles of the mill.

SEC. 10. Prohibited practices. Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to changes in discount practices, devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

ARTICLE III—MISCELLANEOUS

SEC. 11. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

(i) That increased costs result in hardship which will impede his production of essential supply of tight cooperage and/or cooperage stock, and

(ii) That his existing maximum price or prices are less than manufacturing costs if his current over-all profits are favorable in relation to those of a representative peace-time period; or that his existing maximum price or prices are less than total costs if his current over-all profits are comparable to his over-all profits for a representative peace-time period; or that his existing maximum price or prices do not afford a reasonable profit if current over-all profits are unfavorable compared to those in a representative peace-time period.

(2) *Factors which may also be considered.* The following factors are relevant to the consideration of whether the maximum prices are at such a level that production of essential items is threatened or impeded, and whether the increased costs warrant an adjustment.

(i) Whether greater efficiency in production, management or merchandising can be reasonably expected so that an adjustment would not be necessary.

(ii) Whether the seller previously sold the particular item or items under consideration at a price which was below his total unit costs.

(iii) The relationship of the seller's stumpage costs to his previous costs and to prices in the area for similar stumpage.

(3) *Form and contents of application.* Applications under this section must be filed in accordance with Revised Procedural Regulation No. 1, issued by the Office of Price Administration. All applications should contain:

(i) Balance sheets, analyses of surplus and profit and loss statements for the company's over-all operations, in the detail normally prepared by the applicant, but at least in the detail required in A and B forms issued by the Office of Price Administration, by years from 1936 to 1939, inclusive, and for the last two full calendar or fiscal years preceding the filing of the application and the available interim period for the current calendar or fiscal year. These statements must be accompanied by a schedule of annual salaries, showing for each year the number of principal executive officers and, in the case of a corporation, individual stockholders owning 10% or more of any single class of capital stock, the total compensation paid to them during each year and the current annual rate of total compensation for such individuals.

The applicant may submit, in addition, data for other years if in his opinion

they are more truly representative of his normal operations.

(ii) Operating statements for tight cooperage and/or tight cooperage stock for the last two full calendar or fiscal years and the available interim period of the current calendar or fiscal year. This statement should show a break-down as to quantity and dollar amount of stumpage costs, logging and log transportation costs, log purchases and log sales, manufacturing cost, opening and closing inventories of both raw materials and finished products and proportioned share of operating expenses, and method used in allocation of such proportioned expenses.

(iii) A schedule for the same periods as in (ii) above of sales and production as to dollar value and quantity of each type and specification of tight cooperage or cooperage stock produced.

(iv) A statement describing the ownership and control of the seller's business.

Sellers who have previously submitted any of the above required data may omit such items from the data submitted with their application provided they indicate when and in what connection they were submitted.

The filing of over-all profit and loss statements for 1936 through 1939 is optional providing, these reports for the company's operations are available from the Bureau of Internal Revenue. Should the applicant indicate that he prefers this procedure this information will be requested by the Office of Price Administration directly from the Bureau of Internal Revenue.

(4) *Orders issued.* The Price Administrator may authorize, modify or deny by order the maximum prices requested. He may require in appropriate cases a compensatory decrease in the maximum prices for other wooden container items manufactured by the applicant.

Any order issued hereunder may be amended or revoked at any time.

[Paragraph (c) added by Am. 6, effective 7-2-45]

The maximum prices for celluloid covered heels apply to finished heels with 10/1000 celluloid. Maximum prices may be increased by \$0.004 per pair for each 2.5/1000 celluloid over 10/1000.

The maximum prices established above apply to finished heels with a 9-iron leather or rubber top lift. Such maxi-

mum prices must be reduced by \$.0025 per pair for an 8-iron leather or rubber top lift and may be increased by \$.0075 per pair for a 10 1/2-iron leather or rubber top lift. The maximum prices for finished heels with a top lift made of material other than leather or rubber shall be the applicable price in the table above, reduced by \$.025 and increased by the actual cost of the top lift material, not to exceed \$.025 per pair. As used in this paragraph the word "rubber" includes synthetic rubber.

The following additions for heels with a leather or rubber top lift may be made to the base finished heel prices established above:

"Official" yard as used above means any yard which, at the time the gum rosin being priced is delivered to the yard, is designated by Commodity Credit Corporation as an approved storage or concentration point for gum rosin which otherwise qualifies as collateral for a commodity loan on gum rosin from that agency.

Maximum prices for 100 pounds net for sales on yard other than official or Savannah, Ga., yard shall be the prices specified above less 3½ cents per 100 pounds net. If the seller or any other person loads the gum rosin on cars at such a yard, the maximum loading charge to be added to the maximum price so reduced shall be 3½ cents per 100 pounds net. If the seller or any other person loads the gum rosin on cars at official or Savannah, Ga., yard, the maximum loading charge shall be 3½ cents per 100 pounds net.

NOTE: As provided in the definition of gum rosin factor in section 10 (a) (6), where a person acts as a gum rosin factor with respect to a sale or delivery of gum rosin, that sale or delivery of gum rosin is subject to the maximum prices established by this paragraph though such person may also be classified as a gum rosin dealer.

(b) **Sales in drums or barrels by gum rosin dealers—(1) Direct sales by gum rosin dealers.** Maximum prices per 100 pounds net f. o. b. cars at shipping point, for direct sales of gum rosin in drums or barrels by gum rosin dealers shall be the prices specified in paragraph (a) above for sales f. o. b. cars plus 22 cents per 100 pounds net.

(2) **Sales from local stocks in small lots by gum rosin dealers.** Maximum

prices are established under this subparagraph (2) per 100 pounds net, ex warehouse (or other point where local stocks are maintained), for lcl sales of gum rosin in drums or barrels for local delivery from local stocks maintained at a particular point by a gum rosin dealer who during the period January 1-June 30, 1944 maintained local stocks of gum rosin at that point for the purpose of supplying a local lcl demand and who in that period made deliveries of gum rosin from such stocks in lcl quantities. However, any gum rosin dealer who during the period January 1-June 30, 1944 made all or a substantial part of such lcl sales at the same prices at which cl sales were made, shall be deemed not to be a gum rosin dealer making sales from local stocks in small lots. Such maximum prices shall be the maximum prices specified in paragraph (a) above for sales f. o. b. cars, plus 80 cents per 100 pounds net, plus cl freight to local stocks from that one of the following points to which freight costs are lowest: Savannah, Valdosta, Helena, Ga.; Jacksonville, Pensacola, Fla.; Mobile, Ala.; Wiggins, Miss.; New Orleans, La.

The foregoing maximum prices apply to all such lcl sales of gum rosin for local delivery by a seller who during the period January 1-June 30, 1944 made sales from local stocks at a particular point solely in lcl quantities. The foregoing maximum prices also apply to an aggregate amount by weight of such lcl sales of gum rosin for local delivery during each six-month period, beginning April 1, 1945, by a seller who during the period January 1-June 30, 1944 made a substantial part of his sales from local stocks at a particular point for local delivery in cl as well as lcl quantities, not to exceed the amount by weight of his lcl sales of gum rosin for local delivery from such local stocks during that period; and the maximum prices for any such lcl sales by such a seller during any such six-month period in excess of such base period lcl volume of sales shall be the maximum prices established for direct sales by gum rosin dealers under subparagraph (1) above. The foregoing maximum prices do not apply to any sales from local stocks at a particular point for local delivery in other than lcl quantities and the maximum prices for such sales shall be the maximum prices established for direct sales by gum rosin dealers under subparagraph (1) above.

(3) With respect to sales by gum rosin dealers for future delivery more than 30 days after date of sale where the gum rosin has been earmarked at the time of sale, an extra charge may be added to the prices specified in subparagraphs (1) and (2) above to cover actual storage, insurance, and interest incurred during the period between 30 days after the date of sale and the date of delivery. However, in no event may this charge exceed 4 cents per 100 pounds net per month.

(c) **Sales in bags or tank cars.** Maximum prices for sales of gum rosin in bags shall be the maximum prices specified in paragraphs (a) and (b) above less 5 cents per 100 pounds net, and for sales in tank cars shall be the maximum prices specified in paragraphs (a) and (b) above less

10 cents per 100 pounds net. As used herein "bags" refers to bags of a size and type generally used for ordinary sales of gum rosin.

(d) **Containers.** No extra charge may be made for containers.

(e) **Failure to file reports.** On and after August 1, 1945, the maximum prices established by paragraphs (b) and (c) of this section for sales by gum rosin dealers will apply only if the reports required by section 5 (c) (1) have been filed. On and after August 1, 1945, the maximum price applicable to any sale of gum rosin in quantities of 100 pounds or more will be the maximum price established for a like sale by a gum rosin producer or factor under paragraph (a) or (c) above, unless the seller has filed the report required by section 5 (c) (1).

(f) **Sales not otherwise provided for—(1) In general.** The maximum price for any sale (except a sale by a reseller in quantities of less than 100 pounds and except as indicated in subparagraph (2) below) for which a maximum price is not otherwise established under this section shall be the maximum price established for a like sale by a gum rosin producer or factor under paragraph (a) or (c) above.

(2) **Powdered gum rosin and sales in small containers.** In the case of any sale of powdered gum rosin for which a maximum price otherwise established under this section is not appropriate or of gum rosin in small containers other than the drums, barrels or bags referred to in paragraphs (a), (b) and (c) above, the maximum price shall be the maximum price established under subparagraph (1) above unless and until an application has been filed and a different maximum price has been established by order as indicated below.

If the seller elects to file an application, his maximum price for sales of powdered gum rosin or of gum rosin in small containers shall be the price in line with the level of maximum prices established by this regulation, fixed by order of the Administrator, unless the application is dismissed by order of the Administrator for the reason that granting it would be inconsistent with the purposes of this regulation and the Emergency Price Control Act of 1942, as amended.

Upon the filing of the application or within five days prior thereto, and until final disposition of the application, contracts may be entered into or proposed and bids submitted at the price or prices proposed in the application, and deliveries may be made under such contracts, except that the seller may not receive, and the buyer may not pay the amount by which the price exceeds the maximum price otherwise established under this section 12 unless and until an order granting a higher price has been issued. The seller shall include in any sale, contract to sell, or offer to sell at the price proposed in the application the following:

(i) The maximum price otherwise established under this section 12.

(ii) A statement that the quoted price is subject to approval of the Office of Price Administration.

(iii) A statement that an appropriate application has been filed, or will be filed, within five days, with the Office of Price Administration.

The application shall be filed in duplicate by registered mail with the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. (b) A short description of his powdered gum rosin business including the classes of persons from whom he buys and the classes of persons to whom he sells; the extent he is currently powdering gum rosin, and the proportion of gum rosin powdered which he produces himself.

And in the case where the applicant is a new seller of powdered gum rosin, whether his business is owned by an individual, partnership or corporation, and by whom it is controlled, directly or indirectly, through management interest, corporate affiliation, ownership of stock or otherwise, and the name, address, and previous connection with the production or distribution of gum rosin other than in powdered form of each proprietor, partner, or stockholder holding more than 10% of any class of stock.

(c) A short description of the transactions for which and class of purchasers for sales to whom a maximum price is proposed.

(d) The proposed maximum price.

(e) An explanation of how the proposed price was determined, including

(1) In the case of a person who powders gum rosin, the costs of powdering.

(2) The maximum price, if any, already established to other classes of purchasers, and a statement as to how these were determined.

(3) In the case of a reseller of powdered gum rosin, the name and address of his supplier, and the cost (not in excess of the supplier's maximum price) of the powdered gum rosin resold.

(f) The reasons why the applicant believes the proposed price to be in line with the level of maximum prices established by this regulation.

(ii) *Small containers.* (a) A statement of the reasons why a maximum price cannot be otherwise established under this section 12.

(b) A short description of the small container to be used including its cost (not in excess of the maximum price) and the customary dollar and cent differentials between such a container and standard gum rosin containers.

(c) A short description of the transactions for which and class of purchasers for sales in such containers to whom a maximum price is proposed.

(d) The proposed maximum price.

(e) An explanation of how the proposed price was determined including

No. 127—4

(2) In the case of a reseller of gum rosin who acquires gum rosin already packaged in such containers, the name and address of his supplier, and the cost (not in excess of the supplier's maximum price) of such packaged gum rosin.

(f) The reasons why the applicant believes the proposed price to be in line with the level of maximum prices established by this regulation.

SEC. 13. Application for right to sell at gum rosin dealer prices or as a gum rosin dealer entitled to make sales from local stocks at special prices. This section applies to any person who cannot qualify as a gum rosin dealer or as such a dealer entitled to make sales from local stocks in small lots at special prices and believes that because of the particular facts of his case the application to him of the general criteria for such dealers would be inequitable and not necessary to effectuate the purposes of this regulation and the Emergency Price Control Act of 1942, as amended. Such a person may file an application in duplicate for authorization as such a dealer with the Rubber, Chemicals and Drugs Price Branch, Office of Price Administration, Washington 25, D. C., which application shall contain the following information:

(a) Whether he was in business during the period January 1-June 30, 1944.

(b) Whether his operations, if any, during the period January 1-June 30, 1944 were representative as compared with his operations, if any, in the preceding calendar year.

(c) The extent, if any, to which the nature of his gum rosin business has changed since the period January 1-June 30, 1944.

(d) Whether his business is owned by an individual, partnership or corporation, and by whom it is controlled, directly or indirectly, through management interest, corporate affiliation, ownership of stock or otherwise, and the name, address, and previous connection with the production or distribution of gum rosin of each proprietor, partner, or stockholder holding more than 10% of any class of stock.

The application for authorization as such a dealer shall be granted or denied in whole or in part by order of the Administrator so as to effectuate the purposes of this regulation and the Emergency Price Control Act of 1942, as amended.

Effective date. This regulation shall become effective July 2, 1945.

DANIEL GREEN CO.

RATION-FREE HOUSE SLIPPER

The above petitioner is a registered manufacturing establishment which makes house slippers exclusively.

On August 7, 1943 an amendment to Ration Order 17 was made effective which provided that any footwear made with cattle hide leather in the upper or with cattle hide grain leather outsoles (other than heads, bellies, shins or shanks of 5 iron or less) could not be classified as house slippers if they were shipped from a factory in the United States after August 31, 1943. At the time this amendment became effective, the petitioner had in process of manufacture about 4,000 pairs of house slippers made with cattle hide leather in the upper. The petitioner states that these shoes could not be completed or shipped before September 1, 1943 and that, therefore, these shoes have remained in stock since the middle of September 1943.

These shoes are typical house slippers designed exclusively for indoor wear. Therefore, it has been impossible for the petitioner to sell these shoes as neither members of the trade nor consumers would surrender ration stamps for them. Because of the financial loss entailed to the petitioner and because the leather in these shoes will deteriorate in time unless they can be disposed of, the petitioner states the foregoing facts and requests that it may transfer such shoes without ration currency.

The relief requested in this case may be granted to the petitioner and all other persons similarly situated without defeating or impairing the effectiveness or the policy of Ration Order 17 and without varying standards of eligibility or need.

It is hereby ordered, That the petitioner is authorized to receive from the Director of the Miscellaneous Products Rationing Division, Office of Price Administration, Washington, D. C., 4,000 non-rationed stickers. Petitioner shall attach a non-rationed sticker on one

shoe of each pair of the house slippers described herein. It may then transfer the shoes ration-free. Any unused stickers shall be returned to the Director of the Miscellaneous Products Rationing Division within 30 days after they are received by the petitioner.

It is further ordered, That any other persons similarly situated may be given the same relief under similar conditions upon application to and written authorization from the Director of the Miscellaneous Products Rationing Division, Office of Price Administration, Washington, D. C.

Issued and effective this 26th day of June 1945.

Deputy Administrator for Rationing.

Regional and District Office Orders.

[Raleigh Rev. Order G-1 Under Gen. Order 50, Amdt. 5]

MALT AND CEREAL BEVERAGES IN RALEIGH, N. C., DISTRICT

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Raleigh, North Carolina, District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, the sections 1-22, inclusive, and Appendices A and B of Revised Order No. G-1 under General Order No. 50 are hereby amended to read as follows:

SECTION 1. Purpose of order. Order No. G-1 under General Order 50 issued by the District Director of the Raleigh District Office of the Office of Price Administration on the 1st day of September, 1944, was issued for the purpose of establishing specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away. Order No. G-1 under General Order 50 is redesignated Revised Order No. G-1 under General Order 50 and is revised and amended as herein set forth and issued for the same purpose, except that specific maximum prices are established only for on-premises sales, and for the further purpose of clarifying and strengthening the order.

SEC. 2. Geographical applicability. The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties in the State of North Carolina:

Alamance, Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Caswell, Chatham, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Durham, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hertford, Hoke, Hyde, Johnston, Jones, Lee, Lenoir, Martin, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Robeson, Sampson, Scotland, Tyrrell, Vance, Wake, Warren, Washington, Wayne and Wilson.

SEC. 3. Ceiling prices. (a) On and after September 11, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed herein, and if you believe that the maximum price specified herein for such beverage is not appropriate to such beverage, you may make application to the Raleigh, North Carolina District Office of the Office of Price Administration requesting that such beverage be specifically included in the appendices hereof. With or without such application, the

Raleigh, North Carolina District Office of the Office of Price Administration may, at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the appendices hereof.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. How to figure your ceiling prices. (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4-10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4-10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided, no consideration may be given to sales of beverages listed in appendices other than Appendix A hereof. You must figure the group to which you belong as follows:

(1) **Group 1 B.** Your establishment belongs to Group 1 B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 1 B establishments.

(2) **Group 2 B.** Your establishment belongs to Group 2 B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in Appendix A hereof for Group 2 B establishments, but were less than those provided in Appendix A for Group 1 B establishments.

(3) **Group 3 B.** Your establishment belongs to Group 3 B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in Appendix A hereof for Group 2 B establishments. All establishments not in operation during the base period of April 4-10, 1943, and all establishments which begin operating after the effective date of this order also belong to Group 3 B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4-10, 1943, but

was in operation prior to the effective date of this order, and if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2B, you may, but not later than the first day of October, 1944, file an application with the Raleigh, North Carolina District Office of the Office of Price Administration, requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon, and unless your establishment is reclassified, it must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the following information:

(1) Name and address of the establishment and of its owner or owners.

(2) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) If your eating and drinking establishment begins operation after the effective date of this order, you are classified as a Group 3B seller and may not sell or offer for sale beverages subject to this order at prices higher than those set forth for Group 3B sellers in the appendices hereof. However, if your nearest eating and drinking establishment of the same type is one which is properly classified as a Group 1B or Group 2B seller, you may, within and not later than 30 days from the time you begin operating, file an application with the Raleigh, North Carolina District Office, requesting that your establishment be reclassified into the same group in which its nearest eating and drinking establishment of the same type belongs. Until your application is acted upon and unless your establishment is reclassified, it must retain the classification of Group 3B and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the same information required by paragraph (c) of this section.

(e) After you have figured your proper group number under this section and have filed the required statement with your War Price and Rationing Board as provided in Section 5, you may not change your group classification except as otherwise provided by this order.

SEC. 5. Filing with War Price and Rationing Board. (a) When you have figured your proper group under section 4 above you must, on or before September 11, 1944, file with your War Price and Rationing Board a signed statement with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to

which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number. If you begin operating your establishment after the effective date of this order, you must likewise file said signed statement in this manner as soon as you begin operating.

(b) If you are now in operation and have not filed the signed statement showing the group number to which you belong as provided in paragraph (a) above, you must do so immediately. If you have failed to file said signed statement as herein required, you are hereby classified as a Group 3B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling price listed for Group 3B sellers in the appendices hereof. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. Modification of prices. After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4-10, 1943 legal ceiling prices, this order properly applies, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4-10, 1943 were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. Exempt sales. The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such) including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as a part of, a meal and where the price of such beverage is included in the price of

the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. Evasion. If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you had in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. Records and menus. If you are an operator of an eating or drinking establishment subject to this order you must observe the requirements of Gen-

eral Order 50, as well as Restaurant Maximum Price Regulation No. 2, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. Posting of prices. (a) If you own or operate an eating or drinking establishment offering malt beverages subject to this order you must comply with the provisions of Order No. 2, issued under Restaurant Maximum Price Regulation 2 on March 10, 1945, and effective the same date, either as heretofore or hereafter revised and amended, which order provides in part that you must on or before April 16, 1945, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for all beer and other malt beverages which you offer for consumption on your premises;

(b) If you begin operating your establishment after April 16, 1945, you must obtain the price poster applicable to your establishment from your Local War Price and Rationing Board and post same immediately.

(c) No establishment which fails to comply with the posting requirements of Order No. 2 issued under Restaurant Maximum Price Regulation No. 2 on March 10, 1945, and effective the same date, either as heretofore or hereafter revised and amended, may sell any beverage subject to this order at higher prices than the prices provided for Group 3B sellers as set forth in the appendices hereof during such time as such establishment is not in compliance with said order.

SEC. 11. Posting of group number. (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B", "OPA 2B", or "OPA 3B", whichever is applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3B sellers in the appendices hereof during such time as such

establishment is not in compliance with this section.

SEC. 12. *Receipts and sales slips.* Regardless of whether or not receipts have customarily been issued, upon request by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips you may not now discontinue the practice.

SEC. 13. *Operation of several places.* If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. *Enforcement.* If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. *Relation to other maximum price regulations.* This order supersedes the provisions of Revised Maximum Price Regulation No. 259, as amended, and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the price of the meal remain subject to the provisions of Restaurant Maximum Price Regulation 2.

SEC. 17. *Definitions.* (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near-beer".

(c) "On draught" means dispensed by a seller at retail from any container of 1/2 barrel or larger size.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(e) "Sell, sale, etc." include the service, for a consideration, of all beverages

subject to this order, with a license to consume on the premises.

(f) "Eating or drinking establishments" means any place in which meals, food items or beverages are sold and served primarily for consumption on or about the premises. The term includes but is not limited to restaurants, hotels, cafes, cafeterias, delicatessens, soda fountains, boarding houses, catering establishments, athletic stadiums, field kitchens, lunch wagons, hot dog carts, etc.

(g) "On-premise sales" means those sales made for consumption by the customers either in, on, or about the premises of the seller, or in the immediate vicinity thereof, and includes curb service sales, and sales made to customers served in automobiles located on or about the premises of the seller.

(h) "Other definitions". Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. *Transfers of business or stock in trade.* If the business assets or stock in trade of any establishment are hereafter sold or otherwise transferred, or have been sold or transferred subsequent to April 10, 1943, and the transferee carries on the business or continues to sell malt beverages covered by this order in the same location, the maximum prices of the transferee shall be the same as those to which its transferor would have been subject if no such transfer had taken place, and its obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record-keeping requirements of this order. If there is a lapse of business operations in connection with such a transfer for a period of sixty days, selling prices shall be determined as provided in section 4 for a new seller.

SEC. 19. *Changes in location.* If any establishment is hereinafter moved to a new location, the establishment shall be considered a new seller under this order and shall determine its ceiling prices under the provisions of section 4.

SEC. 20. *Petitions for amendment.* Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance to the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Raleigh, North Carolina District Office.

SEC. 21. *Revocation and amendment.* This order may be revoked, amended, or corrected at any time.

SEC. 22. *Effective date.* This order shall become effective September 11, 1944.

[Raleigh 2d Rev. Order G-1 Under Gen. Order 50]

MALT AND CEREAL BEVERAGES IN RALEIGH, N. C., DISTRICT

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the District Director of the Raleigh, North Carolina District Office of Region IV of the Office of Price Administration by General Order No. 50, issued by the Administrator of the Office of Price Administration, and Region IV Revised Delegation Order No. 17, issued May 5, 1944, it is hereby ordered:

SECTION 1. *Purpose of order.* Order No. G-1 under General Order 50 issued by the District Director of the Raleigh District Office of the Office of Price Administration on the 1st day of September, 1944, was issued for the purpose of establishing specific maximum prices for malt and cereal beverages, including those commonly known as ale, beer and near-beer, either in containers or on draught when sold or offered for sale at retail by any eating or drinking establishment, either for consumption on the premises or when carried away. Order G-1 under General Order 50 was thereafter redesignated Revised Order No. G-1 under General Order 50. Revised Order G-1 under General Order 50 is redesignated 2nd Revised Order G-1 under General Order 50, and is revised and amended as herein set forth and issued for the same purpose, except that specific maximum prices are established only for on-premise sales, and for the further purpose of clarifying and strengthening the order. Maximum prices for domestic malt beverages when sold for off-premise consumption are controlled by Revised Maximum Price Regulation 259.

SEC. 2. *Geographical applicability.* The provisions of this order extend to all eating and drinking places or establishments located within the limits of the following named counties in the State of North Carolina:

Alamance, Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Caswell, Chatham, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Durham, Edgecombe, Franklin, Gates, Granville, Greene, Halifax, Harnett, Hartford, Hoke, Hyde, Johnston, Jones, Lee, Lenoir, Martin, Moore, Nash, New Hanover, Northampton, Onslow, Orange, Pamlico, Pasquotank, Pender, Perquimans, Person, Pitt, Robeson, Sampson, Scotland, Tyrrell, Vance, Wake, Warren, Washington, Wayne, and Wilson.

SEC. 3. *Ceiling Prices.* (a) On and after September 11, 1944, if you operate an eating or drinking establishment, you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling prices listed in the appendices hereof. You may, of course, charge lower prices at any time.

(b) If you sell any beverage subject to this order which is not specifically listed herein, and if you believe that the maximum price specified herein for such beverage is not appropriate to such beverage, you may make application to the Raleigh, North Carolina District Office of the Office of Price Administration requesting that such beverage be

specifically included in the appendices hereof. With or without such application, the Raleigh, North Carolina District Office of the Office of Price Administration may, at any time, and from time to time, add new or unlisted beverages, brands, types or sizes together with maximum prices for same to the lists set forth in the appendices hereof.

(c) You may not add any taxes to your ceiling prices set forth in the appendices hereof except those specifically provided therein, as all other taxes were taken into consideration in establishing the ceiling prices for each group of sellers.

SEC. 4. How to figure your ceiling prices. (a) This order divides eating and drinking establishments into three different groups and gives each group a different ceiling price. The group to which you belong depends on your legal ceiling prices in effect during the base period of April 4-10, 1943. You must figure the group to which you belong on the basis of your correct legal ceiling prices for that period.

(b) The group to which you belong depends on your legal ceiling prices for the beverages subject to this order in effect during the base period of April 4-10, 1943. If your legal ceiling prices for various brands and types of beverages subject to this order vary so that your ceiling prices on some brands or types seem to place you in one particular group and ceiling prices on others seem to classify you into a different group, you must classify yourself into the particular group representative of the prices at which the greater number of your sales were made. For the purpose of determining your classification as herein provided, no consideration may be given to sales of beverages listed in appendices other than appendix A hereof. You must figure the group to which you belong as follows:

(1) **Group 1B.** Your establishment belongs to Group 1B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as, or more than, the prices listed in appendix A hereof for Group 1B establishments.

(2) **Group 2B.** Your establishment belongs to Group 2B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were the same as or more than, the prices listed in appendix A hereof for Group 2B establishments, but were less than those provided in appendix A for Group 1B establishments.

(3) **Group 3B.** Your establishment belongs to Group 3B if, during the base period of April 4-10, 1943, your legally established ceiling prices for beverages subject to this order were less than the prices listed in appendix A hereof for Group 2B establishments. All establishments not in operation during the base period of April 4-10, 1943, and all establishments which begin operating after the effective date of this order also belong to Group 3B.

(c) If your eating or drinking establishment was not in operation during the base period of April 4-10, 1943, but

was in operation prior to the effective date of this order, and if the nearest similar eating or drinking establishment of the same type is one which is properly classified in Group 1B or Group 2B, you may, but not later than the first day of October, 1944, file an application with the Raleigh, North Carolina District Office of the Office of Price Administration, requesting that your establishment be reclassified into the same group to which its nearest similar eating or drinking establishment of the same type belongs. Until your application is acted upon, and unless your establishment is reclassified, it must retain the classification of a Group 3B seller, and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the following information:

(1) Name and address of the establishment and of its owner or owners.

(2) A description of the establishment showing its type (such as night club, hotel, restaurant, tavern) and the date it began operating.

(3) The selling prices by brand name of all beverages sold since the beginning of its operation.

(4) The names of the three nearest eating and drinking establishments of the same type, and their group number as determined under this order.

(5) Any other information pertinent to such application or which may be requested by the Office of Price Administration.

(d) If your eating and drinking establishment begins operation after the effective date of this order, you are classified as a Group 3B seller and may not sell or offer for sale beverages subject to this order at prices higher than those set forth for Group 3B sellers in the appendices hereof. However, if the nearest eating and drinking establishment of the same type is one which is properly classified as a Group 1B or Group 2B seller, you may, within and not later than 30 days from the time you begin operating, file an application with the Raleigh, North Carolina District Office, requesting that your establishment be reclassified into the same group in which the nearest eating and drinking establishment of the same type belongs. Until your application is acted upon and unless your establishment is reclassified, it must retain the classification of Group 3B and must observe the ceiling prices as provided for that group in the appendices hereof. All such applications for reclassification must contain the same information required by paragraph (c) of this section.

(e) After you have figured your proper group number under this section and have filed the required statement with your War Price and Rationing Board as provided in Section 5, you may not change your group classification except as otherwise provided by this order.

SEC. 5. Filing with War Price and Rationing Board. (a) When you have figured your proper group under section 4 above you must, on or before September 11, 1944, file with your War Price and Rationing Board a signed statement

with the name and address of your establishment, its type (such as night club, hotel, restaurant, tavern) and the group to which it belongs. Thereupon the War Price and Rationing Board will send you a card bearing your group number. If you begin operating your establishment after the effective date of this order, you must likewise file said signed statement in this manner as soon as you begin operating.

(b) If you are now in operation and have not filed the signed statement showing the group number to which you belong as provided in paragraph (a) above, you must do so immediately. If you have failed to file said signed statement as herein required, you are hereby classified as a Group 3B seller and you may not sell or offer for sale any beverage subject to this order at prices higher than the applicable ceiling price listed for Group 3B sellers in the appendices hereof. Failure to file said signed statement as herein provided is a violation of this order and also subjects you to the other penalties herein provided.

SEC. 6. Modification of prices. After you have determined your group and have put into effect the ceiling prices provided in this order for that group, the Office of Price Administration District Director for the District in which your establishment is located may direct you to charge lower ceiling prices:

(a) If, on the basis of your April 4-10, 1943 legal ceiling prices, this order properly applied, requires you to be placed into a group with lower ceiling prices.

(b) If, as a result of speculative, unwarranted, or abnormal increases, contrary to the purpose of the Emergency Price Control Act, as amended, your legal ceiling prices on April 4-10, 1943 were excessive in relation to the legal ceiling prices of other comparable establishments in the District.

SEC. 7. Exempt sales. The following sales are exempt from the operation of this order. However, unless they are otherwise exempt from price control, they shall remain subject to the appropriate maximum price regulation or order:

(a) Sales by persons on board common carriers (when operated as such) including railroad dining cars, club cars, bar cars, and buffet cars, or sales otherwise governed by Restaurant Maximum Price Regulation 1 (Dining Car Regulation).

(b) Sales by public and private hospitals insofar as they serve to patients.

(c) Sales by eating cooperatives formed by members of the Armed Forces (as, for example, officers' mess) operated as a non-profit cooperative (where no part of the net earnings inures to the benefit of any individual) which sells food items or meals on a cost basis (or as near thereto as reasonable accounting methods will permit), and substantially all sales of which are made to members of the Armed Forces who are members of the cooperative.

(d) Sales where the beverages subject to this order are included in, and sold as a part of, a meal and where the price

of such beverage is included in the price of the meal. (Such sales remain under Restaurant Maximum Price Regulation 2.)

(e) Sales by the War Department or the Department of Navy of the United States through such Departments' sales stores, including commissaries, ships' stores ashore, and by stores operated as army canteens, post exchanges, or ships' activities.

(f) Bona fide private clubs insofar as such clubs sell only to members or bona fide guests of members. Whenever such clubs sell to persons other than members or bona fide guests of members, such clubs shall be considered for all sales an eating or drinking establishment and subject to this order. No club shall be considered to be exempt as a private club, within the meaning of this subparagraph, unless such club is a non-profit organization and is recognized as such by the Bureau of Internal Revenue and unless its members pay dues (more than merely nominal in amount), are elected to membership by a governing board, membership committee or other body, and unless it is otherwise operated as a private club.

No club organized after the effective date of this order shall be exempt unless and until it has filed a request for exemption with the District Office of the Office of Price Administration of the area in which it is located, furnishing such information as may be required, and has received a communication from such office authorizing exemption as a private club.

SEC. 8. Evasion. If you are an operator of an eating or drinking establishment you must not evade the ceiling prices established by this order by any type of scheme or device; among other things (this is not an attempt to list all evasive practices) you must not:

(a) Institute any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you did not have in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(b) Increase any cover, minimum, bread and butter, service, corkage, entertainment, check-room, parking or other special charges which you had in effect on any corresponding day during the seven-day period from April 4-10, 1943, or

(c) Require as a condition of sale of a beverage the purchase of other items or meals, except that during the hours from 11:30 a. m. to 1:30 p. m. and the hours from 6:00 p. m. to 8:00 p. m., any eating or drinking establishment which derives not less than 70% of its gross revenue from the sales of prepared food items (not including beverage items) sold for consumption on the premises may refuse to sell beverages subject to this order for consumption on the premises during those hours to persons who do not also purchase food items.

SEC. 9. Records and Menus. If you are an operator of an eating or drinking establishment subject to this order you

must observe the requirements of General Order 50, as well as Restaurant Maximum Price Regulation No. 2, either as revised and amended or as may be revised and amended, with reference to the filing and keeping of menus and the preservation and keeping of customary and future records. Among other provisions of General Order 50, are the following:

(a) Preserve all existing records relating to prices, cost and sales of food items, meals, and beverages;

(b) Continue to prepare and maintain such records as have been ordinarily kept;

(c) Keep for examination by the Office of Price Administration two copies of each menu used by the establishment each day, or a daily record in duplicate of the prices charged for food items, beverages and meals. If the establishment has customarily used menus, it must continue to do so.

SEC. 10. Posting of prices. (a) If you own or operate an eating or drinking establishment offering malt beverages subject to this order you must comply with the provisions of Order No. 2, issued under Restaurant Maximum Price Regulation 2 on March 10, 1945, and effective the same date, either as heretofore or hereafter revised and amended, which order provides in part that you must on or before April 16, 1945, show on a poster to be supplied by the Office of Price Administration, your lawful ceiling prices for all beer and other malt beverages which you offer for consumption on your premises.

(b) If you begin operating your establishment after April 16, 1945, you must obtain the price poster applicable to your establishment from your Local War Price and Rationing Board and post same immediately.

(c) No establishment which fails to comply with the posting requirements of Order No. 2 issued under Restaurant Maximum Price Regulation No. 2 on March 10, 1945, and effective the same date, either as heretofore or hereafter revised and amended, may sell any beverage subject to this order at higher prices than the prices provided for Group 3B sellers as set forth in the appendices hereof during such time as such establishment is not in compliance with said order.

SEC. 11. Posting of group number. (a) If you operate an eating or drinking establishment selling at retail beverages subject to this order you must post, and keep posted, in the premises a card or cards clearly visible to all purchasers showing the group number of your establishment as classified under this order. The card must read "OPA 1B", "ODA 2B", or "OPA 3B", whichever is applicable. You may use the card or cards furnished you for this purpose by the War Price and Rationing Board.

(b) No establishment which fails to comply with the posting requirements of this section may sell any beverage subject to this order at a higher price than provided for Group 3B sellers in the appendices hereof during such time as

such establishment is not in compliance with this section.

SEC. 12. Receipts and sales slips. Regardless of whether or not receipts have customarily been issued, upon request, by any customer at the time of payment, a receipt containing a full description of the beverage sold and the price of same must be issued. Such receipts must show the date of issue and bear the signature of the person issuing same. If you have customarily issued receipts or sales slips you may not now discontinue the practice.

SEC. 13. Operation of several places. If you own or operate more than one place selling beverages subject to this order, you must do everything required by this regulation for each place separately.

SEC. 14. Enforcement. If you violate any provision of this regulation you are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspensions of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 15. Licensing. The provisions of Licensing Order No. 1 licensing all persons who make sales under price control, are applicable to all sellers subject to this order. If you are a seller subject to this order your license may be suspended for violation of the license or of the order. If your license is suspended you may not, during the period of suspension, make any sale for which your license has been suspended.

SEC. 16. Relation to other maximum price regulations. This order supersedes the provisions of Revised Maximum Price Regulation No. 259, as amended, and the General Maximum Price Regulation insofar as such provisions were applicable to sales at retail by eating and drinking establishments of beverages subject to this order. Sales of beverages subject to this order when sold as part of a meal and when the price of same is included in the price of the meal remain subject to the provisions of Restaurant Maximum Price Regulation 2. Maximum prices for domestic malt beverages when sold for off-premise consumption are controlled by Revised Maximum Price Regulation 259.

SEC. 17. Definitions. (a) "Malt beverage" is any malt beverage produced either within or without the Continental United States, and includes those commonly designated as beer, lager beer, ale, porter and stout.

(b) "Cereal beverage" is any beverage produced from cereals either within or without the Continental United States and commonly known as "near beer".

(c) "On draught" means dispensed by a seller at retail from any container of $\frac{1}{8}$ barrel or larger size.

(d) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political

sub-divisions, or any agency of any of the foregoing.

(e) "Sell, sale, etc." include the service, for a consideration, of all beverages subject to this order, with a license to consume on the premises.

(f) "Eating or drinking establishments" means any place in which meals, food items or beverages are sold and served primarily for consumption on or about the premises. The term includes but is not limited to restaurants, hotels, cafes, cafeterias, delicatessens, soda fountains, boarding houses, catering establishments, athletic stadiums, field kitchens, lunch wagons, hot dog carts, etc.

(g) "On-premise sales" means those sales made for consumption by the customers either in, on, or about the premises of the seller, or in the immediate vicinity thereof, and includes curb service sales, and sales made to customers served in automobiles located on or about the premises of the seller.

(h) "Other definitions". Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, and in § 1499.20 of the General Maximum Price Regulation, shall apply to the other terms used herein.

SEC. 18. Transfers of business or stock in trade. If the business assets or stock in trade of any establishment are hereafter sold or otherwise transferred, or have been sold or transferred subsequent to April 10, 1943, and the transferee carries on the business or continues to sell malt beverages covered by this order in the same location, the maximum prices of the transferee shall be the same as those to which its transferor would have been subject if no such transfer had taken place, and its obligations to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record-keeping requirements of this order. If there is a lapse of business operations in connection with such a transfer for a period of sixty days, selling prices shall be determined as provided in section 4 for a new seller.

SEC. 19. Changes in location. If any establishment is hereinafter moved to a new location, the establishment shall be considered a new seller under this order and shall determine its ceiling prices under the provisions of section 4.

SEC. 20. Petitions for amendment. Any person dissatisfied with any of the provisions of this order may request the Office of Price Administration to amend the order. Such petition for amendment must be filed in pursuance to the provisions of Revised Procedural Regulation No. 1, except that the petition for amendment shall be directed to, filed with, and acted upon, by the District Director of the Raleigh, North Carolina, District Office.

SEC. 21. Revocation and amendment. This order may be revoked, amended, or corrected at any time.

SEC. 22. Effective date. This order shall become effective May 17, 1945. (The prior orders and amendments which this order supersedes became effective on the following dates: Order G-1, July 1, 1944, and Amendment 1, July 29, 1944; Revised Order G-1, September 11, 1944, and Amendment 1, September 25, 1944, Amendment 2, October 14, 1944, Amendment 3, November 13, 1944, Amendment 4, February 1, 1945, and Amendment 5, March 19, 1945. (iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly.

(c) *Price schedule.* (1) Immediately below and as part of this paragraph (c) is a schedule which sets forth maximum prices for sales by direct delivery of specified sizes, kinds and quantities of solid fuels. Column 1 describes the coal for which prices are established; columns 2, 3 and 4 show maximum prices for sales of coal delivered in the quantities indicated by each column heading. Column 5 shows the maximum prices for coal sold for use by buyers whose customary annual requirements of coal exceed 50 tons. All prices are stated on a net ton basis.

The price schedule lists maximum prices for the sale of coal on the basis of the type of mine operation by means of which it is produced. On sales of coal produced in District Nos. 7, 8, and 9, the prices established are similar for the same kind and size of solid fuel regardless of the type of mine operation. On sales of District No. 10 coal the prices established for fuel specified in paragraph IV, 1, apply to coal produced in Deep Machine Mines only; the prices for fuel described in paragraph IV, 2, and IV, 4, apply to coal produced in both Deep Machine Mines and Strip Mines; the prices of coal described in paragraph IV, 3, apply to coal produced in Strip Mines only. The prices of coal produced in District No. 12 apply to both Deep Machine Mine and Strip Mine coal. The prices of coal produced in District No. 15 apply to Strip Mine coal only. The prices of Pennsylvania Anthracite and By-Product Coke are unaffected by the type of mine operation.

But no part of that tax may be collected, in addition to the maximum price on sales of quarter-ton or lesser quantities, or on sales of any quantity of sacked coal.

(g) *Addition of increase in supplier's price prohibited.* Notwithstanding the provisions of Revised Maximum Price Regulation No. 122, the maximum prices set by this order may not be increased and need not be decreased by a dealer to reflect increases or decreases in pur-

(k) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as this order is in effect or for so long as the Emergency Price Control Act of 1942, as amended, shall permit, whichever period is longer, showing the following information:

(1) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but, if this is physically impossible, the term means discharging the fuel directly from the seller's truck at the point nearest and most accessible to the buyer's bin or storage space.

establishes maximum prices for the sale
of certain specified roofing when sold on
an installed basis in Dallas County, Tex.

(b) *Relationship of this order to Re-
vised Maximum Price Regulation No.
251.* Sellers subject to this order may
not use the pricing provisions set forth
in section 6, 7 and 8 of Revised Maximum
Price Regulation No. 251. Except where
the provisions of this order are incon-
sistent therewith, the other provisions
of Revised Maximum Price Regulation
No. 251 shall remain in full force and
effect with respect to the sales of in-
stalled roofing covered by this order.

(c) *Maximum prices.* The maximum
prices which any seller subject to this or-
der may charge for the following mate-
rials when sold on an installed basis are
established, as follows:

	Maximum price per square of 100 square feet installed

ridges.

(d) *Permitted additions.* There may
be added to the maximum prices set
forth in paragraph (c) above, the fol-
lowing:

(1) An amount not to exceed 75¢ per
square if the pitch of the roof is as much
as or more than a rise measured verti-
cally of two feet in each three feet of
horizontal dimension.

(2) An amount not to exceed 75¢ per
square for any job requiring less than
five squares of roofing material.

(3) An additional charge may be made
for any construction work performed in
connection with the sale of installed
roofing such as the removal of old wood-

category of roofing and an explanation
of the amount for incidental work.

(f) *Notification to purchaser.* Every

any combination or type of installed
roofing materials which cannot be priced

price may be determined in accordance with the provisions of section 6 (a) of Revised Maximum Price Regulation No. 251, if possible, or an application for determination of a price may be made in writing to the Office of Price Administration, Dallas District Office. The Regional Administrator will authorize a pricing method either by letter or by amendment to this order.

(h) *Evasion.* Any practice or device which results in a higher price to the purchaser than is permitted by this Order No. G-1 is as much a violation as an outright over-ceiling charge and subjects the seller to the penalties provided by section 16 of Revised Maximum Price Regulation No. 251.
